#### **DEVELOPMENTS IN THE EPSRC MATHEMATICS** PROGRAMME, 1998-2003

This article presents a general overview of some of the developments that have been introduced by the Engineering and Physical Sciences Research Council (EPSRC) into its Mathematics Programme over the last five years, and some personal comments by the EPSRC Mathematics Programme Manager during that time. A fuller version has been posted on the LMS web site.

## **MERTON** COLLEGE. **OXFORD**

### RESEARCH FELLOWSHIP IN PURE MATHEMATICS

Applications are invited for this Fellowship, tenable for 3 years from 1 October 2004, for research in Pure Mathematics including its applications in Computing. Although this is primarily a Research Fellowship, the Fellow will be expected to give 16 lectures a year at the Mathematical Institute and provide a limited amount of undergraduate teaching. The Stipend for a University Lecturer is £22,191 at age 30 or above. In addition, the Fellow will hold a part-time consultancy at GCHO, Cheltenham, for two months each summer, with a supplementary stipend of £3,000 a year. Funding of up to £2,000 per year for travel overseas will also be available from GCHO. Appointment is restricted to British Nationals only and is open to both men and women.

Further particulars and application forms can be obtained from: The Warden's Secretary, Merton College, Oxford OX1 4JD. Tel: 01865 276352 Fax: 01865 276282 lisa.lawrence@admin.merton.ox.ac.uk
